

xDRY[®] EXTRA DRY

No more condensation:
Reduced repairs and
maintenance costs

Under particular environmental conditions, the accumulation of moisture inside the cable can cause the malfunctioning of electrical devices. The ventilation of the device is not often possible, especially when there is water, debris or installed in very small spaces. In this case the electrical connection is fundamental to ensure the reliability of the system.

NO DIRECT CONTACT AMONG THE CONDUCTORS

Anti-condensation
barrier

100%
TESTED

The special anti-moisture barrier prevents any moisture or damp inside the cable from entering the connection and proceeding towards the device installed.

-90% WATER PENETRATION

Important reduction
of defects caused
by water penetration

HIGH RELIABILITY

to guarantee
electrical continuity
over time

READY

for immediate
in-field use

ELECTRICALLY ISOLATED

Absence of
electrical leakage
